About Us

Since 1994, EDET has built on 30 years of expertise in Morocco to establish itself as a national leader in the integration and supply of security solutions for property and people. Thanks to proven know-how and strategic partnerships, we support our clients with reliable, innovative, and tailored solutions.

Our expertise covers the installation, integration, and maintenance of security systems, thereby ensuring our clients:

Reliability

Performance

Peace of mind

Our services are structured around **four key pillars**, offering a comprehensive and tailor-made approach:

1	2	3	4

Study & Audit

Needs Assessment and Risk Identification

Integration & Planning Consulting

Design of Customized Solutions and Selection of the Most Suitable Technologies

Supply & Implementation

Installation, Programming, Commissioning, and Client Training

Maintenance & Warranty

Technical Support and Preventive & Corrective Maintenance to Ensure the Longevity of Installations

KEY FIGURES

+

+

+

30 Years of Experience

- Since 1994, a Key Player in Security in Morocco

+100 Satisfied Clients

- Industrial Sites, Commercial Buildings, High-Rise Buildings, ERP, Public and Private Institutions, and More.

+200 Installations

- Presence and Operations Throughout Morocco and in Africa (Guinea)

+ 200 Maintenance Contracts

- Continuous Support to Ensure System Reliability

OUR HUMAN CAPITAL

The EDET team is structured and agile, ready to meet the demands of each project with efficiency and commitment. We deploy skills tailored to our clients' needs, ensuring quality and responsiveness at every stage.
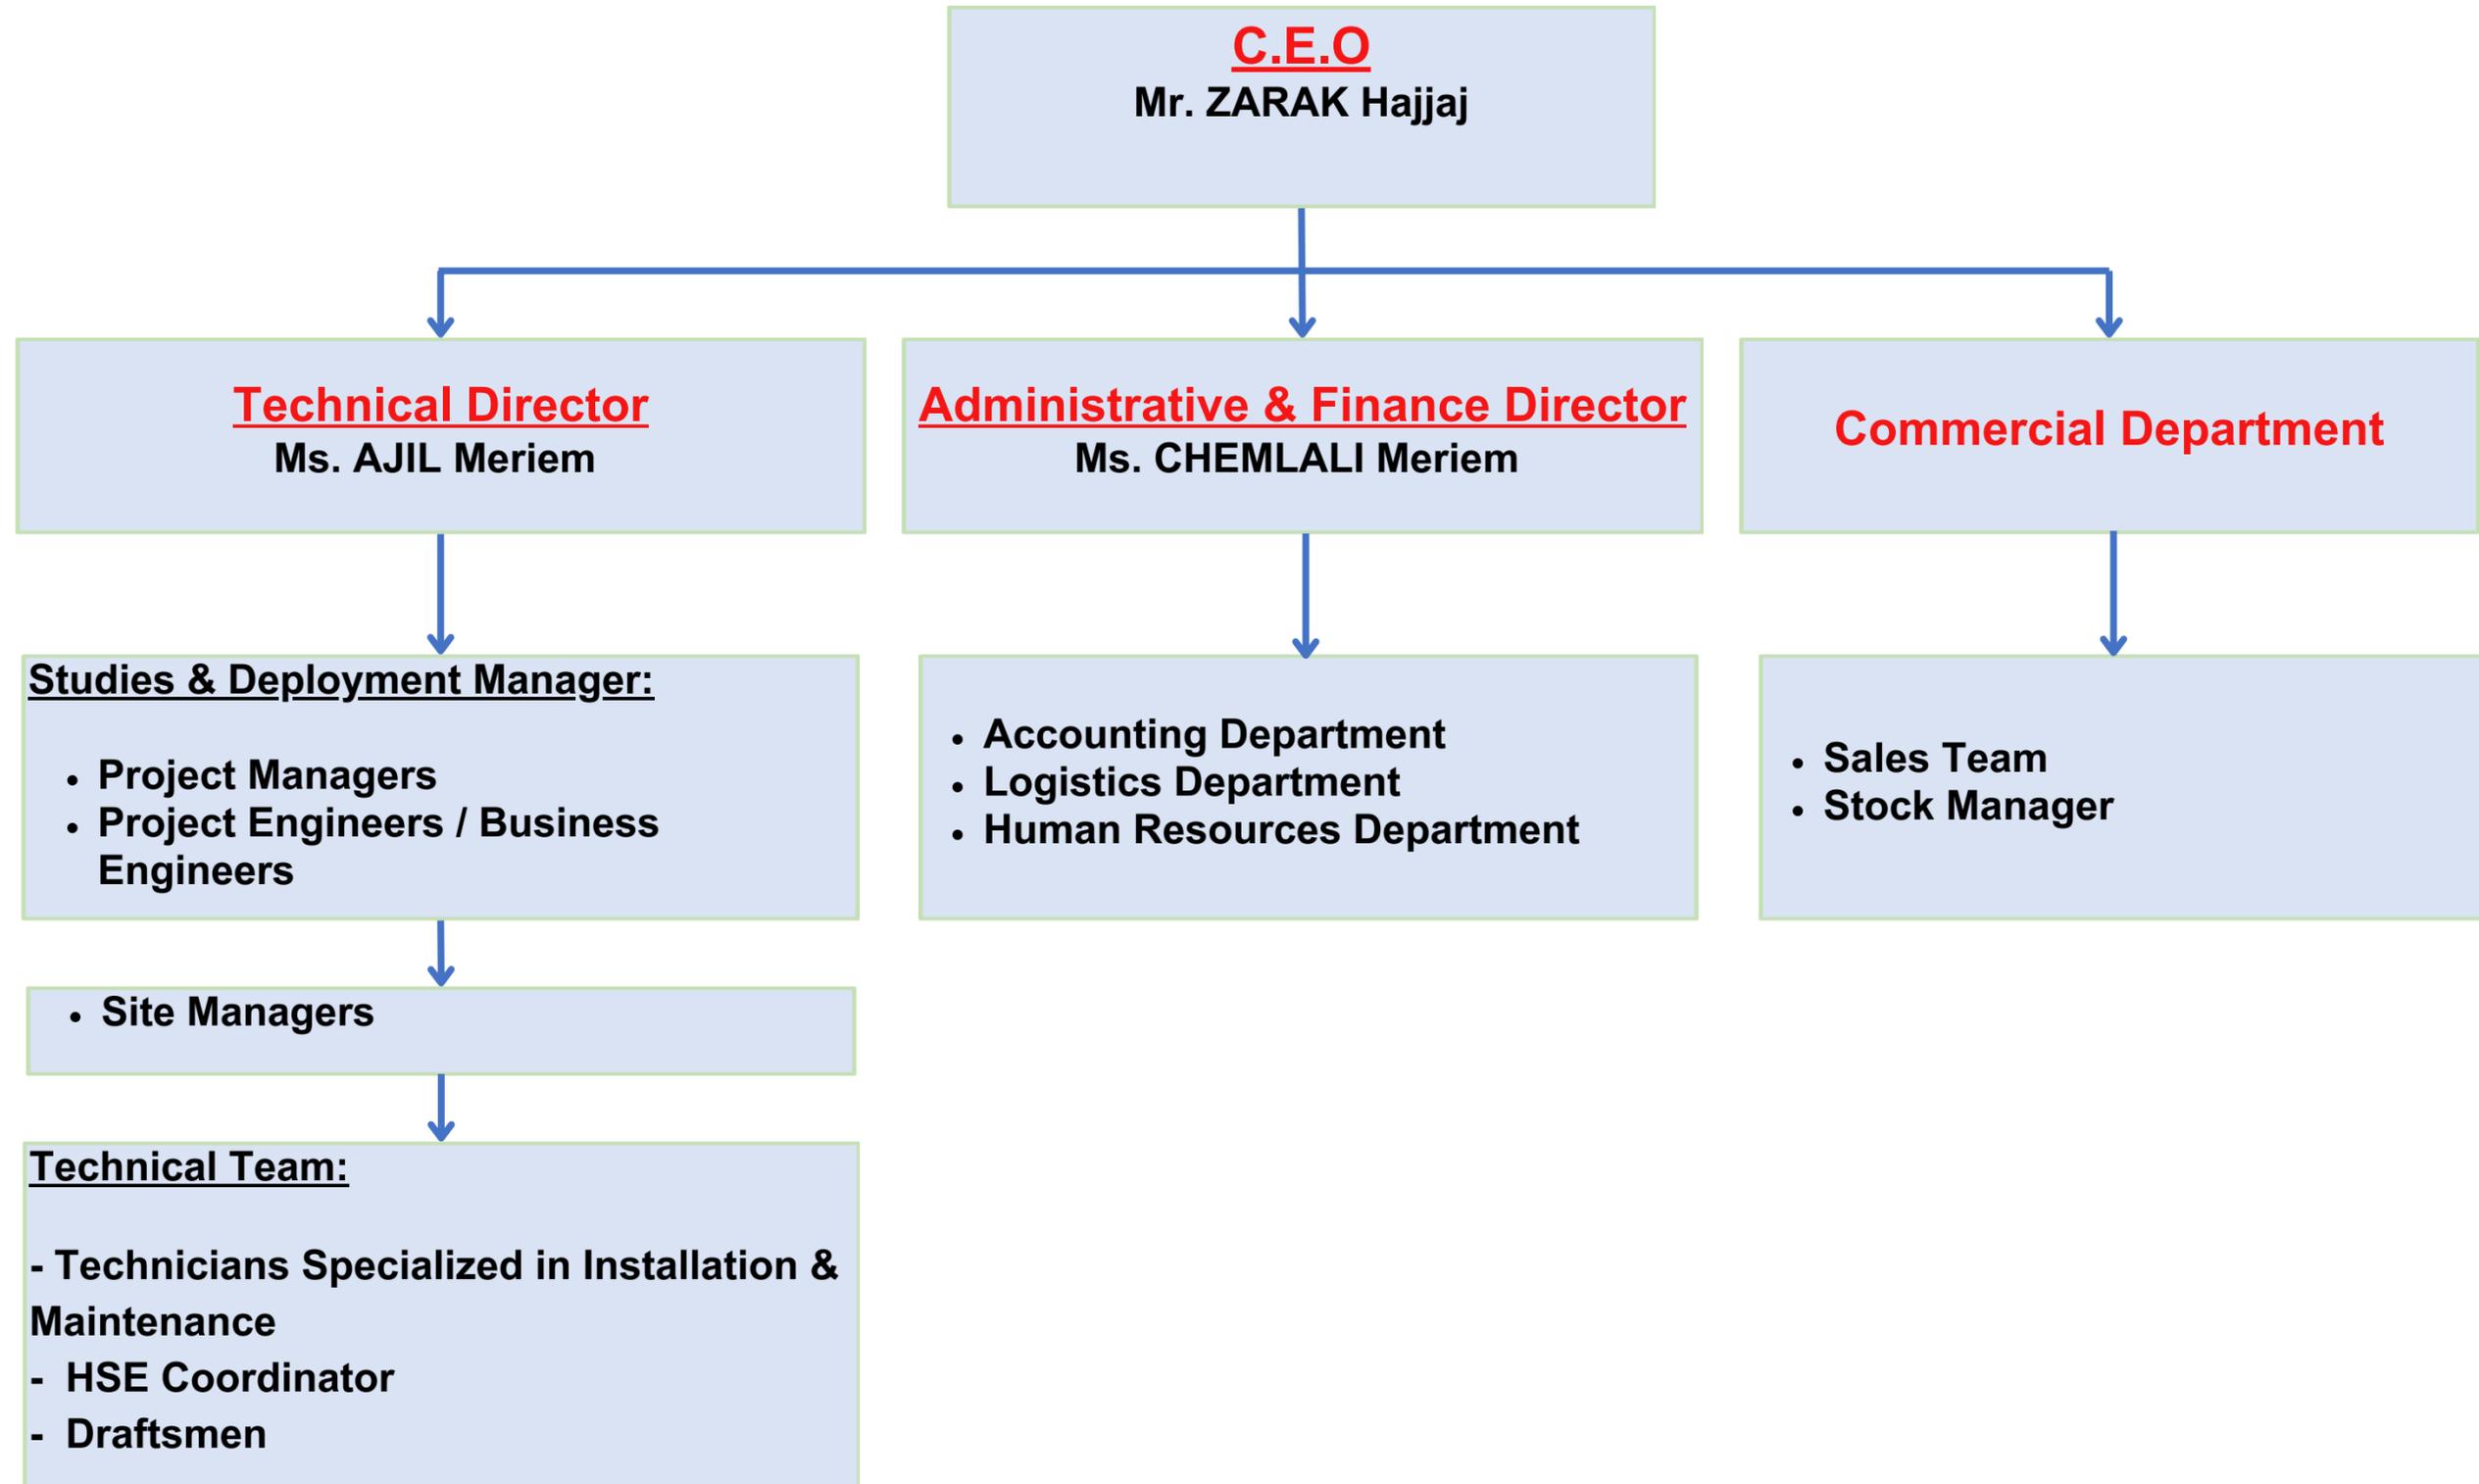

Our strength lies in a multidisciplinary team where technical expertise and field experience combine to ensure the integration and management of high-performance security solutions.

With an evolving and optimized organizational structure, we constantly adapt to market challenges and changes, guaranteeing smooth management and effective project execution.

Mr. ZARAK Hajjaj

Technical Director
Ms. AJIL Meriem

Administrative & Finance Director
Ms. CHEMLALI Meriem

Commercial Department

Studies & Deployment Manager:

- Project Managers
- Project Engineers / Business Engineers

- Accounting Department
- Logistics Department
- Human Resources Department

- Sales Team
- Stock Manager

- Site Managers

Technical Team:

- Technicians Specialized in Installation & Maintenance
- HSE Coordinator
- Draftsmen

OUR LOGISTICS AND EQUIPMENT RESOURCES

30 YEARS EXPERIENCE

EDET — ALARM & SECURITY SYSTEM

Vehicle Fleet

- 1- Mercedes Station Wagon
- 1- Range Rover
- 4- Dacia Logan
- 2- Renault Express
- 1- Renault Van
- 2- Pick-ups
- 1- 20m Aerial Work Platform Truck

Installation & Maintenance Equipment

We have a complete set of equipment for the installation and maintenance of our systems:

- Power and hand tools
- Welding equipment and specialized tools
- Ladders and scaffolding
- Lifting solutions and height-access equipment

Measurement & Control Equipment

- We have testing and measurement devices to ensure the reliability and compliance of our installations, including testing and measurement of equipment, cables, and optical fibers.

Demonstration & Testing Tools

- We provide demonstration kits for our detection and access control systems, allowing us to showcase their performance and features under real-world conditions.

Our Expertise

Comprehensive Solutions for the Safety of People and Property

INTRUSION

We implement high-performance alarm and intrusion detection systems, designed to protect your premises against unauthorized access and break-ins.

SOUND SYSTEMS

With our expertise in sound systems, we deploy high-quality solutions for alerts, announcements, and ambient audio in your spaces.

TV DISTRIBUTION

Leveraging our expertise in communication networks, we design centralized TV distribution solutions tailored for large sites and infrastructures.

DIGITAL SIGNAGE

We design digital signage solutions to inform, guide, and communicate within your facilities or public spaces.

30 YEARS EXPERIENCE

EDET ALARM & SECURITY SYSTEM

Our Expertise

Comprehensive Solutions for the Safety of People and Property

30 YEARS EXPERIENCE

EDET — ALARM & SECURITY SYSTEM

PARKING MANAGEMENT

We implement intelligent parking management solutions, combining access control, guidance, and surveillance for an optimal user experience.

STRUCTURED CABLING

Our IT pre-wiring solutions provide a high-performance network infrastructure, ensuring reliable connectivity. We deploy solutions tailored to all networking needs.

MAINTENANCE CONTRACT

We offer tailor-made maintenance contracts to ensure the performance, reliability, and longevity of your security systems, providing responsive support and optimized intervention times.

OTHER AREAS

We also install BMS/BAS systems, security intercoms, as well as various software and hardware solutions tailored to our clients' specific needs, ensuring optimal and secure management of their infrastructures.

FIRE DETECTION AND PROTECTION

We offer high-performance and certified fire detection systems, suitable for the most demanding environments. Our solutions comply with current regulations and international standards, ensuring safety and reliability.

UL LISTED   FM APPROVED   CE   NFPA   NF   LPCB

Our solutions cover all types of fire detection, tailored to the specific needs of each site:

◆ **Addressable and Conventional Detection**

◆ **Various Detectors:**

- Smoke, heat, and combined (smoke & heat detectors).
- Flame detectors, carbon monoxide (CO) detectors
- Linear heat and beam detectors
- Industrial gas detectors (for sensitive environments)

AUTOMATIC FIRE SUPPRESSION

Our automatic fire suppression solutions provide rapid and effective protection against fires, tailored to the specific needs of each environment. Compliant with international standards, they ensure the safety of both infrastructures and people

Our Fire Suppression Solutions

◆ Clean Agent Systems (Residue-Free)::

- FK-5-1-12 (Novec 1230), HFC-227 (FM-200

◆ Inert Gas Systems (Eco-Friendly and Efficient):

- IG-100, IG-55, IG-541

◆ CO_2 Extinguishing (High Efficiency for Unoccupied Areas)

◆ Water-Based Extinguishing (Traditional and Reliable Protection):

- Sprinklers, deluge systems, water mist

◆ Foam Extinguishing (Ideal for Hydrocarbons and Chemical Industries):

- CAF, high- and low-expansion foam

◆ Aerosol Extinguishing (Compact, Suitable for Small Spaces)

VIDEO SURVEILLANCE

In a world of rapidly evolving technology, EDET remains at the forefront of innovation in video surveillance. Through continuous technological monitoring and participation in major international trade shows, we provide our clients with solutions tailored to their technical and budgetary requirements.

Our Strengths:

✅ Analog and IP solutions tailored to your needs

✅ Cutting-edge technology for smart surveillance

✅ Wide range of equipment (cameras, recorders, video analytics, etc.)

✅ Proven expertise on sensitive and complex sites (high-rise buildings, industrial sites, etc.)

30 YEARS EXPERIENCE

EDET
ALARM & SECURITY SYSTEM

ACCESS CONTROL & INTRUSION ALARM

We offer advanced and scalable solutions to secure access and prevent intrusions, tailored to all types of infrastructures:

- Commercial Buildings (offices, shopping centers, residential buildings)
- Sensitive Sites (industrial facilities, data centers, hospitals, banks)

Access Control Solutions:

Thanks to our globally renowned technology partners, we offer flexible and integrated solutions, ranging from simple access management to complex multi-site systems:

- Biometric readers, RFID, and smart cards
- Centralized or standalone access control
- Visitor management and connected intercom systems
- Integrated solutions with video surveillance and time management

ACCESS CONTROL & INTRUSION ALARM

We offer advanced and scalable solutions to secure access and prevent intrusions, tailored to all types of infrastructures:

- Commercial Buildings (offices, shopping centers, residential buildings)
- Sensitive Sites (industrial facilities, data centers, hospitals, banks)

Intrusion Alarm Solutions:

Our systems provide comprehensive protection to prevent any risk of intrusion, with installations tailored to each environment:

- Wired, wireless, and hybrid detection
- Scalable alarm control panels
- Infrared barriers and smart motion detectors
- Automation and remote management via mobile applications

STRUCTURED CABLING

We ensure the installation of high-performance structured cabling networks, compliant with international standards, to guarantee reliable and scalable connectivity.

✅ Design & Planning – Needs analysis and selection of appropriate technologies

✅ Installation & Integration – Copper networks (Cat 5e, 6, 6A, 7) and fiber optic

✅ Testing & Certification – Verification with specialized equipment (OTDR, etc.)

✅ Maintenance & Scalability – Monitoring and adaptation to new requirements

◆ Solutions tailored for offices, industrial sites, hotels, hospitals, and data centers

◆ Partnership with recognized brands and compliance with standards

SOUND SYSTEMS

High-quality sound is essential for clear and immersive communication. We offer sound system solutions tailored to all types of spaces, ensuring optimal and even sound distribution for professional, commercial, or institutional applications.

✅ Solutions for All Types of Spaces

- Indoor: Meeting rooms, conference halls, auditoriums
- Outdoor: Pools, gardens, public areas, stadiums

✅ Advanced Technologies

- High-quality sound distribution systems
- Wireless microphones, amplifiers, directional speakers
- Integration with home automation and multimedia management

✅ Wide Range of Applications

- Hotels, mosques, exhibition halls, training centers
- Emergency evacuation and public address systems

TV DISTRIBUTION

We integrate advanced TV distribution solutions, tailored to the needs of hotels, resorts, and professional establishments. Our systems ensure smooth, high-quality television content delivery, incorporating the latest IPTV and TV distribution technologies.

✅ Solutions tailored to all types of establishments:

- Hotels, holiday residences, leisure centers
- Hospitals, companies, university campuses

✅ Advanced Technologies:

- IPTV: High resolution, flexibility, and interactivity
- Digital and analog TV distribution: Compatible with all infrastructures

✅ Benefits of our IPTV solutions:

- HD and 4K content transmission
- Single IP infrastructure for TV, VoIP, Internet, and multimedia
- Optimized user experience

DIGITAL SIGNAGE

Optimize your communication with high-performance digital signage solutions. We integrate interactive screens and advanced content management systems, enabling effective, real-time display of information, promotions, and announcements.

✅ Diverse Applications:

- Corporate & Business: Meeting rooms, reception areas
- Commerce & Retail: Stores, shopping centers, restaurants
- Public Sector & Transportation: Train stations, airports, public institutions
- Healthcare: Clinics, hospitals

✅ Technologies Used:

- High-definition LCD, LED, and OLED screens
- Remote content management systems
- Interactive displays with sensors and recognition

✅ Key Benefits:

- Multimedia content display (videos, live streams, etc.)
- Real-time updates of information and promotions

PARKING MANAGEMENT

To meet the current market demand for a parking management system, we provide solutions that enhance parking services and rule enforcement efficiency, while significantly increasing the operator's profitability.

EDET, together with its globally recognized partners, offers high-quality services for the following sectors:

✅ Parking Lots

✅ Motorhome Parking Areas

✅ Campground Parking

✅ Healthcare Facility Parking

✅ Leisure Center Parking

✅ Building Materials Store Parking
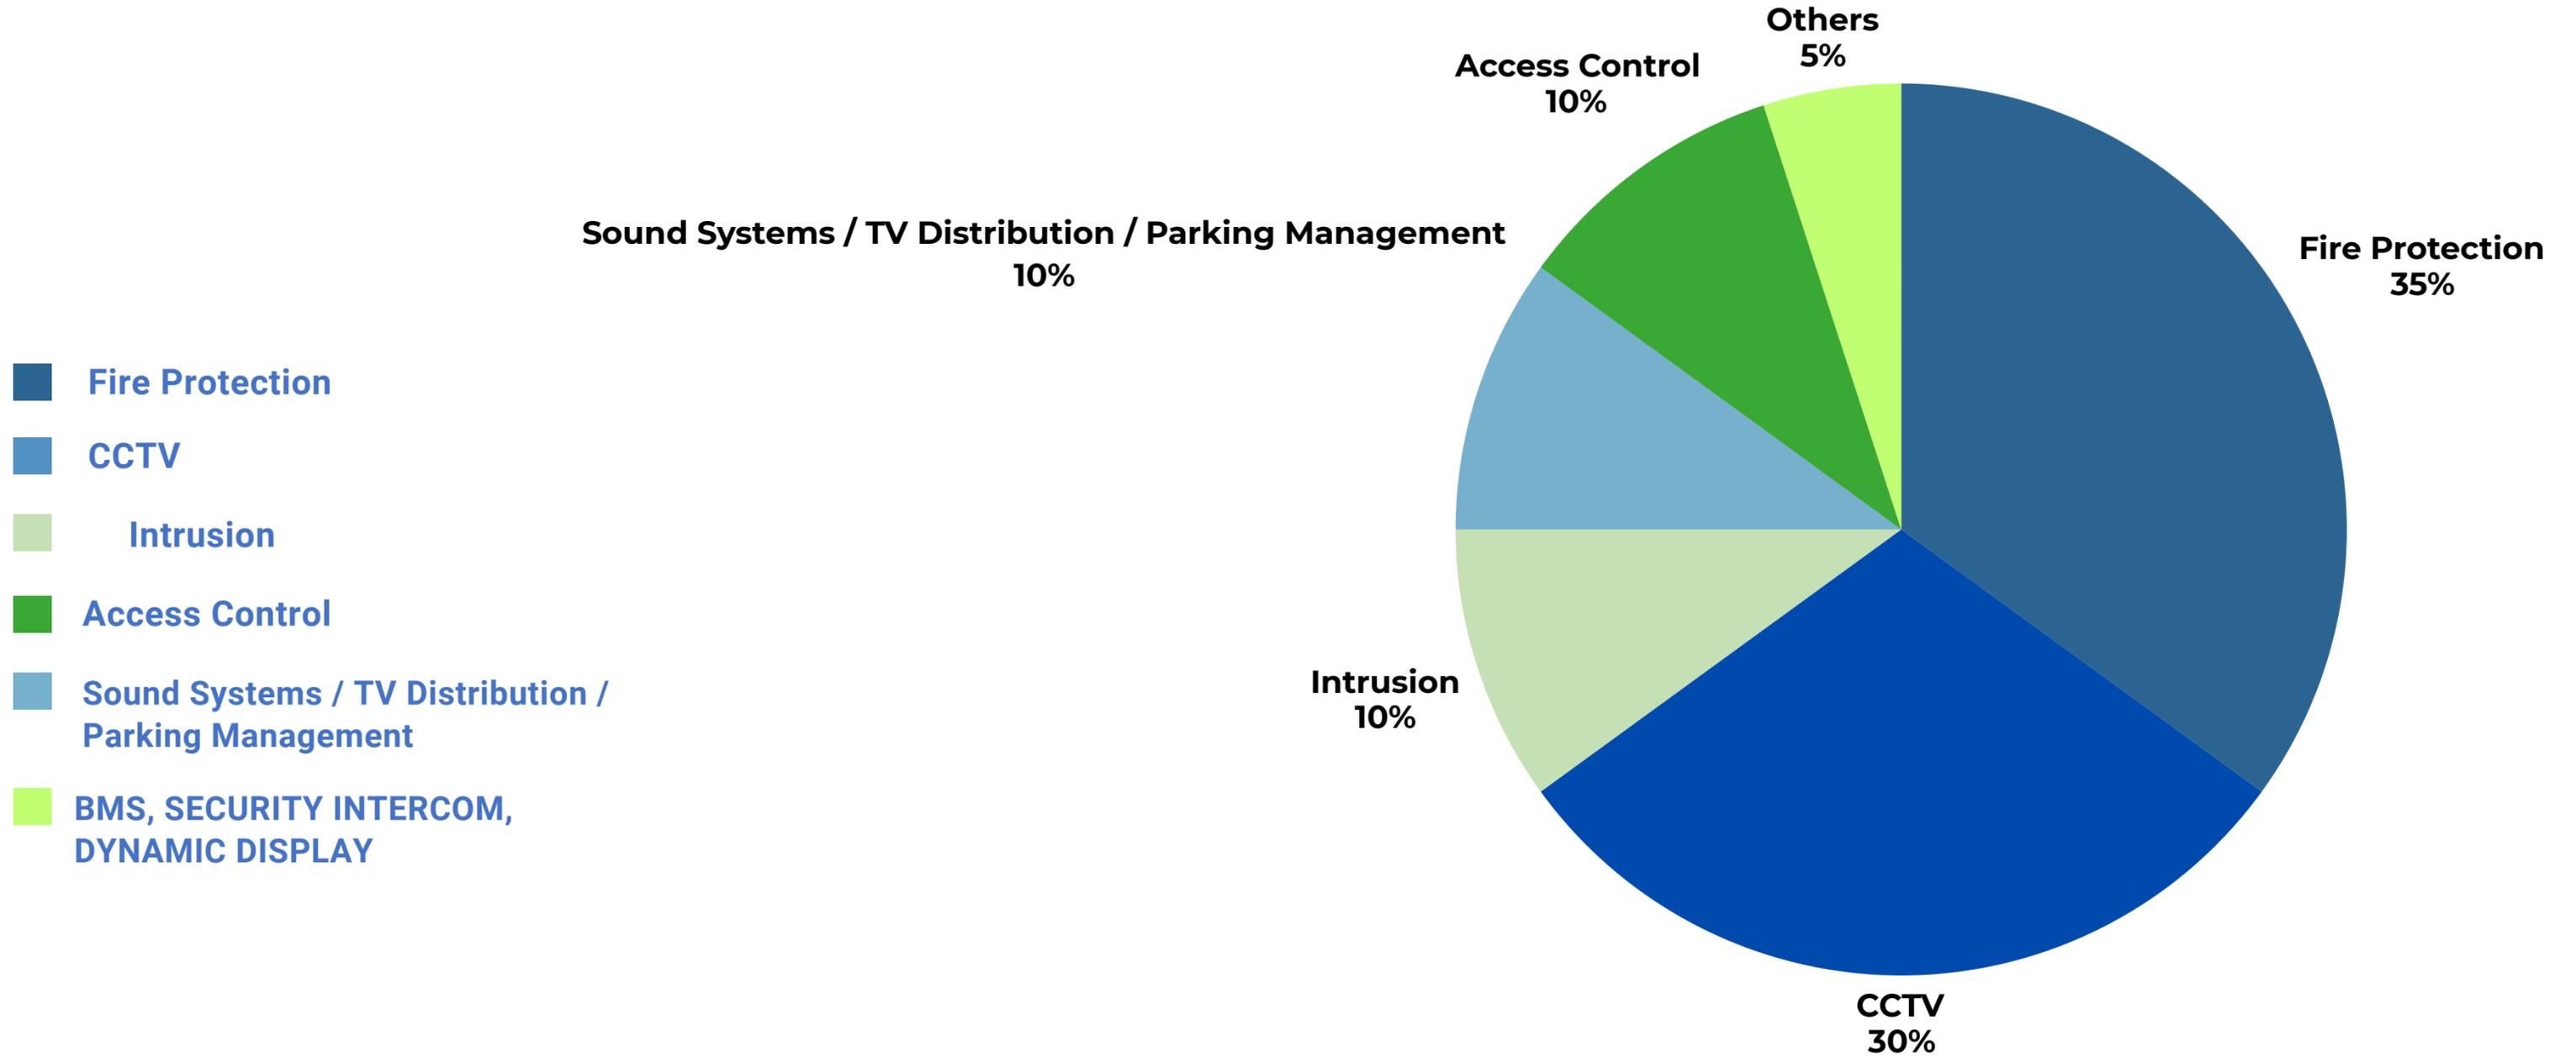

✅ City Store Parking

MAINTENANCE CONTRACT

Subscribing to a maintenance contract ensures that your equipment remains fully operational and efficient. Whether at the time of acquisition or later, we tailor our services to your needs to guarantee continuous security.

✅ Rapid Response – Intervention within 48 hours in case of failure

✅ Preventive Visits – Quarterly or semi-annual inspections to prevent any malfunction

✅ Centralized Supervision – Proactive detection of outages, system errors, and malfunctions

✅ Contract Takeover – Option to integrate your installations under a new contract with optimized service

AMONG OUR PARTNERS

OUR COMMITMENTS

At EDET, we are committed to delivering high-performance security solutions tailored to our clients' needs. Our commitment is based on:

01 Quality & Compliance

We provide equipment and installations that comply with the most demanding international standards (NFPA, FM/UL, EN 54, NF, etc.).

02 Expertise & Innovation

With 30 years of experience, we integrate cutting-edge technologies to deliver modern and efficient solutions.

03 Reliability & Responsiveness

We provide responsive maintenance services and technical support to ensure the proper operation of your installations.

04 Customer Satisfaction

We work closely with our clients to deliver tailored solutions and ensure high-quality follow-up.
